### BackEnd:

- Node.js
- Express.js
- Ember.js
- Restful API

### DataBase:

- MongoDB
- MySQL

### Other Programming Languages:

- C
- C++
- Python
- PHP

## PROJECTS

[For more interesting projects kindly visit my portfolio]

### • EduVision: [Link](#)

EduVision is a mini-ERP for government primary schools, managing attendance, marks, and student data. Built with the MEEN stack, it enables easy supervision and centralized monitoring.

### • Virtual Hand Painter: [Link](#)

Virtual Hand Painter is a feature used in online meetings to represent visuals without the need for any hardware assistance. It uses our camera to track hands for drawing which reduces the reliance on text and promotes visual interaction by enabling on-screen drawing.

### • Simple Q/A Chatbot: [Link](#)

This Project is designed to answer a predefined set of questions. It works on a conversational model, interpreting short user inputs effectively. The bot provides accurate responses based on the detected query. Mostly used in Customer Support and Tech Assistance fields.

## EDUCATION

**Bachelor of Computer Applications (BCA)** [2022 - 2025]

Presidency University, Bengaluru, Karnataka.

CGPA - 8.66
